## **FHE USA LLC Acquires NRG Technologies, Expands Capabilities in Pressure Control and Pumping Solutions**

**Fruita, Colorado – July 30, 2024** – FHE USA LLC (FHE), a world-class manufacturer of pressure control equipment for the oil and gas industry, is pleased to announce its acquisition of NRG Technologies. This strategic acquisition expands FHE’s portfolio and enhances its ability to deliver comprehensive solutions for pressure control and pressure pumping operations.

NRG Technologies is renowned for its innovative and reliable equipment designed to withstand the demanding conditions of the oil and gas industry. Their product line includes well-stimulation asset engineering and design, packaging services, testing and commissioning capabilities, equipment upgrades, component rebuilds, and control system integration. These products are engineered for maximum operational efficiency and reliability, even in extreme environments.

FHE has a strong presence across major U.S. land basins and international locations, offering proven solutions for pressure control. Our commitment to engineering excellence ensures that our equipment is durable, safe, and performs exceptionally well in challenging conditions. By integrating NRG Technologies’ advanced products into our portfolio, we enhance our ability to meet the diverse needs of our clients with innovative, reliable, and high-quality equipment.

### **Key Benefits of the Acquisition:**

- **Enhanced Product Portfolio:** The integration of NRG Technologies’ high-performance pumps and power solutions complements FHE’s existing pressure control equipment, providing our clients with a more comprehensive range of solutions.
- **Operational Efficiency:** Combining the strengths of both companies allows us to deliver more efficient and reliable equipment, ensuring continuous operation and reduced downtime.
- **Advanced Safety Features:** Both FHE and NRG Technologies prioritize safety. Our equipment meets stringent industry standards and incorporates advanced safety features to protect personnel, equipment, and valued relationships.
- **Customer Support and Service:** FHE is dedicated to building strong customer relationships. Our team of experts offers technical assistance, expert product guidance, and maintenance services to ensure optimal performance and customer satisfaction.

With this acquisition, FHE continues strengthening its position as an oil and gas industry leader, providing innovative solutions that combine reliability, safety, and exceptional service. We are committed to supporting our clients with high-quality products that meet their specific needs and help optimize their operations.

### **About FHE USA LLC**

FHE is a leading manufacturer of pressure control equipment serving the oil and gas industry. With a strong presence across major U.S. land basins and international operations, we provide reliable and effective solutions for various applications. Our commitment to engineering excellence has resulted in a product line renowned for its durability, safety, and performance. We design and build our equipment with a deep understanding of the challenging conditions faced by oil and gas operators, ensuring that our products consistently deliver reliable service.
